****Note:** Suggested End of Suhur / STOP Eating / Begin Fasting time is 10 minutes prior Fajr (Dawn) and suggested Iftar (End of Fast) time is 3 – 6 minutes after Sunset (Scientific) unless the Dawn/Sunset (scientific) times correlate with the dawn/sunset seen by the naked eye. Use the Sunrise time to deduce Ishraq. The above Maghrib timings have been adjusted to be 6 minutes after the Scientific Sunset time for that day. According to certain methods Asr time can be ~55 minutes and Isha time can be ~20 minutes prior to timings above. These are the beginning times for each salat. Beginning and End of the Islamic lunar months is dependent on local crescent (hilal) sighting. Jumah is 2:10 p.m.
